Five members of the audit committee visited the site where OSG products, which support the global manufacturing industry, are manufactured.

After receiving an overview of the plant, they listened to an explanation of each process and toured the plant. It was an opportunity to deepen their understanding of OSG's production activities.

We will deliver the activities of the Audit Committee in the "Audit Committee Report" to deepen stakeholders' understanding of our company's initiatives.

The five Audit Committee members were given a detailed briefing on production activities in the Factory
