Business adaptation plan certified

On October 12, 2022, OSG Corporation (President: Nobuaki Osawa) was certified by the Ministry of Economy, Trade and Industry for the "Energy Use Environmental Impact Reduction Business Adaptation Plan (Investment promotion tax system for carbon neutrality)".

This system aims to achieve carbon neutrality (reduce total greenhouse gas emissions to zero) by 2050, and supports initiatives that contribute to decarbonization.

We are working on the development and proposal of new products and services that create energy saving and efficiency improvement in manufacturing, with the philosophy of "environmentally friendly product manufacturing" in our environmental activities. Considering the response to climate change as an opportunity for growth, in order to increase our value as a company, we will increase capacity and increase machines to improve production efficiency, and replace aging machines. By reducing the CO2 emissions during product manufacturing, we will create added value and reduce the burden on the environment.

For details, please refer to the website of the Ministry of Economy, Trade and Industry below.
